## Glories of Old

### Wales Presented In Pass Program

#### Welsh and Their Friends Hear Stirring Program at Hillcrest

(Lethbridge Herald)

The entire Welsh population of Blairmore, together with their compatriots from Coleman, Cowley, Bellevue and the Pass towns generally, migrated to Hillcrest on St. David's day, March 1, when a Welsh re-union was held on the day of the patron saint of the historic principality. In the early evening a banquet was held, under the slogan "Cyfnu am Byth" (Welsh forever), at which a large part of the conversation was carried on in the musical language of Cambria's rugged hills and valleys; the throng of guests made it one of the largest banquets ever held in Hillcrest, and the fervent patriotism shown by those in attendance proves that the Welsh have forgotten their ancient enmity with the Sassenachs, and are among the most loyal and law-abiding citizens of the British empire.

The Rev. R.W. Griffith of Cowley, acted as toastmaster, and the following toasts were honored: "The King," Mr. George Cruickshank; "Canada," Rev. Roy C. Taylor; "England," Mr. F. J. Smith; "Scotland," Mr. W. Stephenson, Jr.; "Ireland," Rev. Father Donovan (Bellevue); and "Wales," Rev. R.W. Griffith (Cowley). The toasts were given with musical honors, the respective national songs being "O Canada," "Rule Britannia," "Auld Lang Syne," "The Dear Little Shamrock," and "Hen Wlad fy Nhadau" (Dear Land of My Fathers).

The standard of oratory at the banquet was exceptionally high. The Rev. Roy C. Taylor of Hillcrest, spoke most eloquently of the history of Canada, from the time of the red man to the present day, tracing the development which has taken place already, and pointing out that even greater things are in store. The Rev. Father Donovan touched many hearts with his stirring address on "Ould Erin," but perhaps the climax was reached when the Rev. R.W. Griffith spoke in honor of the land which gave him birth. It should be mentioned that the banquet table was decorated with daffodils, the Welsh national flower, and with candles, nor was the Welsh lark forgotten; in fact the scene was one which will long be remembered.

Later in the evening a grand concert was given, at which about 400 people were entertained by some brilliant performers, addresses were given in Welsh by the Rev. Mr. Griffith and Mr. Evans, and fond memories of the homeland were aroused by Welsh airs and recitations, given with the fire that is characteristic of the nation. The program was finally concluded with the audience singing together the ancient Welsh hymn, "The Tune of the Battle." From start to finish St. David's day was fittingly celebrated by the Hillcrest gathering.

The Rev. J. W. Smith of Blairmore will occupy the pulpit at St. Paul's on Sunday evening. It is expected that the members and friends of the congregation will be out in full force to welcome Mr. Smith as this is his first visit to Coleman. Service at seven. The public are invited.

## Reception Last Thursday

On Thursday afternoon last a reception was held at the home of Mr. and Mrs. F. G. Graham, Second street, in honor of their daughter, Mrs. Stephen Machin, on the return of the bridal couple from their honeymoon trip. The house was prettily decorated with amilies and daffodils and the door was answered by little Patricia Emmerson the callers being received by Mr. Graham and her daughter, the latter being attired in her wedding dress of white and mauve georgette.

Tea was poured by Mrs. A. W. H. McLeod, and the ices were cut by Mrs. W. L. Rippon, relieved by Mrs. L. Hall and Mrs. T. B. Smith. The Misses Gladys MacKay, Christie Allan and Gladys Price waited on the tables. Two very nice solos were given by Mrs. Jones.

## SCOUT NEWS

### Come On Out/ Annual Meeting for Re-Organization Was Held on Monday

A meeting of the above was held in the parish hall of St. Alban's on Monday last at 8 p.m.

The following were elected officers for the ensuing year:

Hon. Presidents: O. E. S. Whiteside and G. Kellock.

President—J. Howarth.

Vice President—H. T. Halliwell.

Sec. Treas.—A. D. Currie.

Troop Committee—Messrs. J. Low, T. Brennan, F. Thom, G. Nasadyk, G. Morgan, J. Rushon, W. Cowie and Scoutmaster G. Brown.

The secretary-treasurer reported a balance in hand of \$35.40 and the scoutmaster reported a balance in hand of \$12.30 in the troop fund.

An interesting report on the activities during the past year was given by Scoutmaster Geo. Brown, who has maintained a keen interest in the Scouts and had held the boys together during the winter months. He told the meeting of the camp experiences of last summer at Lee Lake, how the week's activities were brought to a premature end by a deluge of rain which made life uncomfortable for the boys, especially those who were attending their first camp, but the boys took it all with a smile, even if clothes, tents, blankets and grub were rained-soaked.

He planned this year on taking a scoutmaster's course, and later taking the boys to camp for their annual instruction. Mention was also made of the kindness of those who had assisted the Scouts in various ways by donations, and especially to Mr. and Mrs. Rushon for their visits to the camp with supplies for the boys. As a mark of appreciation official thanks badges will be awarded to Mr. and Mrs. Rushon.

The next meeting of the Association will be held on the first Monday in April, when further plans for the annual camp and the year's program will be discussed.

Mr. A. M. Morrison states that deliveries of Ford cars will commence this month, and that five carloads were delivered in Calgary from the factory on Saturday last. The Calgary Herald on Saturday carried a photograph of a prominent Calgary taking delivery of his new Ford coach.

## \$6.75 Rate on Coal to Ontario Likely to Be Effective in 1928

### Would Cover Three Month Period Yearly for Next Three Years, During Which Time Railway Board Will Investigate Actual Costs of Movement

A despatch to the Lethbridge Herald from Ottawa states that negotiations with the railway companies are well advanced, it is understood, for the establishment of a three year test rate on the movement of Alberta coal to Central Canada. An official announcement in the matter is likely within the next few days.

Pending the official announcement, details will not be available. But according to reports, the scheme probably will be on the basis of a three-year test-rate of \$6.75 per ton established by order-in-council. The rate would be applicable over a period of at least three months in each of the three years. Following application of the rate the railway board would investigate actual costs of the movement. Any loss to the railway companies would then be met by an appropriation in the supplementary estimates.

## Ewing-Anderson Wed- ding on Friday Last

### Friends and Acquaintances Attend in Large Numbers to Wit- ness Marriage Ceremony

The United church was the scene of a largely attended wedding on Friday evening last, when Isabella, daughter of Mr. David Anderson, was married to Mr. James Russell Ewing, the Rev. H. D. Bevan officiating. As the bridal party entered the church, Mendelssohn's Wedding March was played on the organ by Mr. J. Emmerson.

The bride was accompanied by her father, who gave her away, and the bridesmaid was Miss May Muir, Mr. Wm. Anderson acting as best man.

The bride was attired in a lovely blue georgette dress covered with silver lace, and carried a bouquet of dark roses, the bridesmaid looked very pretty dressed in crepe de chene and carrying a bouquet of carnations.

Following the wedding ceremony over a hundred guests partook of the wedding luncheon served at the Grand Union Hotel, at the conclusion of which a dance was held in the K. of P. hall, terminating at 8.30 a.m.

## St. Alban's Church

Evensong every Wednesday during Lent at 7.30 p.m.

The W. A. meets in the parish hall on Thursday at 7.30 p.m.

The junior W. A. meets on Friday at 8.30 p.m. in the parish hall. All girls from 8 to 14 are eligible for membership.

Sunday, March 11, holy communion at 8 a.m.; evensong at 7 p.m. Confirmation classes meet at 3.30 p.m. on Sundays after Sunday school.

In connection with the recent announcement by the hospital board that residents other than miners may take advantage of hospital accommodation at \$4.50 every three months, payable in advance, an Impression has gone forth that this included attendance of the doctor. This is not so, as doctor's fees are payable in addition to the charge for accommodation.

R. White of Edmonton and T. H. Ball of Toronto were visitors to the local Orange lodge last Saturday.

## Town Council Meeting

A special meeting was held on Tuesday evening, when the re-appointment of James Ford as secretary-treasurer was confirmed by three readings of the bylaw as required by statute.

Cr. James Moores was appointed deputy mayor for the ensuing three months.

It was decided to purchase a sediment tester for the use of the sanitary inspector in testing milk.

A temporary pool will be dug on Sixth street east to carry off the surface water which has been a nuisance to people living there.

Chief Houghton reported the inspection of all dairies and prosecution of two owners for allowing manure to accumulate.

Mayor Burns presided at the meeting, and in attendance were Crs. Moores, Nelson, Fraser and Pattinson.

## This Was a Real Bargain — But

Who says that people do not watch the advertisements for bargains? Here is positive proof that they do, which a local storekeeper found out very shortly after last week's issue of The Journal went into circulation. John Holky, who operates a grocery store opposite the Empire Hotel, in copying his advertisement, made the error of putting two packages of rolled oats at 45c instead of 85c. During Friday morning at least twelve people came for the bargain, and after the first few arrivals John soon discovered the reason of the rush on rolled oats. Of course he could not continue to sell his stock of oats at that price unless he felt charitably disposed, so he had to explain to the bargain hunters that the error was unfortunate and that he was sorry and so on.

The error plainly demonstrates that local advertising is closely read and that people will take advantage of bargains very quickly if they can save money by so doing.

It did not take Mr. Holky very long to get a display card in the window giving the correct price, for fear that he might be besieged during the afternoon for rolled oats at the wrongly advertised price.

Faith will carry you over many an obstacle. Faith in that you are operating a business or are engaged in a profession which is rendering a service to the people, faith that you will succeed in selling them the goods they need at prices that are fair to the buyer as well as the seller, faith that you live in a town which is a good place to live in, faith in the good qualities of the people around you, will make the daily round more pleasant and profitable for you. Far better to be a cheerful optimist than a grouchy pessimist. You get more fun out of life and help to make others happy.

The feature picture on Saturday at the Palace will be "When a Man Loves," with John Barrymore cast in the leading role. Comedy and Fox News. Matinee on Saturday afternoon at 2 p.m. A big feature coming to the Palace on Wednesday, March 21 is the Heeneys vs. Delaney fight pictures. Watch for advertising in The Journal.

Mr. Frank Graham, pioneer barber of the Crow's Nest Pass, announces in this issue the addition of a third chair to his barber shop, and the engagement of a first class city barber from Calgary. Mr. Graham finds that increasing business necessitates a larger staff, and is remodeling his store to meet the requirements.

## Milk Inspection Results Received

### Of Eight Dairies Inspected One Has Milk Below Requirements of Public Health Act

Constable Houghton, who is also sanitary inspector, recently made an inspection of all dairies and took samples of the milk being sold to customers. He visited eight establishments from which milk was being sold, and samples were forwarded to the provincial laboratory, Edmonton, to be analysed by Allen C. Rankin, M. D., provincial bacteriologist.

The samples were tested for butter fat, total solids and specific gravity, and all the milks represented by the samples were found to be of good quality with the exception of that in container D22, which the report states was below the standard in butter fat, total solids and solids non fat.

There was a variation in the number of organisms per each 15 drops, as shown by the bacteriological test, but none were shown to contain sufficient to endanger the quality of the milk for human consumption. The variation in butter fat was from the highest mark of 7.8 down to 2.4 per cent, the latter being the sample which is below standard, and the owner of the dairy from which this sample was taken has been notified of the result of the analysis. The second highest in butter fat showed 4.8 per cent, while the analysis showed that some of the samples were running very close to the minimum of the standard allowed as regards butter fat and total solids.

The sanitary inspector also instituted two prosecutions for dirty premises, those prosecuted having too much manure around their barns. All owners were instructed to whitewash their barns, and manure must be removed as soon as one load has accumulated. One of the men prosecuted had twenty loads.

The importance of the quality and cleanliness of the milk supply is of vital public concern, as it is from this source that typhoid fever can be very quickly spread. The City of Montreal last year had a very startling epidemic and a large number of deaths from typhoid caused by contaminated milk, which has made the health authorities very much alive to the importance of closely watching the milk supply of communities, and in some cases pasteurization has been adopted as a safety measure.

These tests will be made from time to time, and samples may be taken from milk at any time on the wagons while in course of delivery. If any person has milk which he believes is contaminated, or below the standard, as is often the case when skimmed or separated milk is sold as whole milk, he may advise the health inspector, furnish samples direct from the bottle on which the complaint is made.

The result chart of the analysis is in possession of the town council, and shows very clearly the wide variations in the quality of the milk sold, together with the names of all the vendors.

Margaret Halliwell left on Tuesday of last week to enter the Nurses Home at Medicine Hat general hospital for training. Prior to leaving Coleman high school, she was presented with a wrist watch bracelet by her school chums, in recognition of her having held office as president of the literary society of the school.

## DUNNING REPLIES TO CRITICISMS OF THE BUDGET

Ottawa.—Hon. Charles Dunning, minister of railways, replied in the House to conservative criticisms that in announcing reductions in the net debt, the minister of finance had not taken into consideration Canadian national bond guarantees.

Mr. Dunning's speech was made in continued debate on the budget. From the Conservative side, Col. Canley, of Pictou, objected to the budget because, he said, it failed to safeguard Canadian industry, and H. C. Hooke, of Toronto West Centre, urged child immigration, coming in this regard, the action of the immigration department in regard to Barnardo boys.

Mr. Dunning, in the course of his speech, said critics sought to make it appear that the accounting system had been changed. The fact was that the general form now followed in the estimates originated with the Conservative government in 1921. The government guaranteed loans of \$61,000,000, not one dollar of which was taken into account in the net public debt.

"Was the present method a correct and sound business procedure?" Mr. Dunning submitted that it was and that it followed by the provincial governments of Canada, in carrying on similar undertakings.

"What is the objective of these attacks?" asked Mr. Dunning. Their object is to deprive the minister of finance and the government of the credit of having reduced the net debt by \$106,000,000. But the fact remained that the taxpayers of Canada were now paying interest on \$106,000,000 less, and the Canadian National was paying interest on its obligations to the public.

Every speech which had come from the Conservative side of the House had been "The old plea for higher and higher protection," Mr. Dunning continued. "The one remedy the Conservatives have for any disease, or imagined of the body politic, is higher protection." Since this was the case, why had the Conservatives not put the word protection in their amendment. This amendment, by being used in Western Canada to support the contention that the Conservative opposition had at least abandoned the principle of protection.

Speeches of the opposition members, Mr. Dunning thought, were good advertising for the United States. They emphasized the prosperity of that republic at the expense of Canada. There were not so many Canadians going across to the United States if the Conservatives did not depict it as such an attractive place. As a matter of fact, there had been a growth of unemployment in the United States and a decrease of it in Canada.

Mr. Dunning gave figures in support of this statement: No observer, he said, would argue that the American farmer was in a better position than the Canadian.

## Oldest Motor Car For Sale

French Model Of 1891 Still In Working Order

Paris.—The oldest motor car in the world, built nearly forty years ago and still in working order after having covered close on 200,000 miles, is up for sale by auction. It is a one-horse power Panhard with a chain drive and iron tires. It made its first run in 1891, and the engine was taken down and completely overhauled in 1912. That is the only occasion on which it has been to the garage for repairs. The owner of the car is Abbe Gavois, the worthy village priest of Belloy-Saint-Leonard, in the Somme department, who bought it in 1895 for the sum of \$368 and has used it ever since. Several times he has exhibited it in Paris at the Motor Salon, driving it down the Champs Elysees emitting the stream of traffic of modern luxury cars.

Abbe Gavois wants to build a new church in his village in the old war area dedicated to St. Christopher, the patron saint of motorists, and he has confided the "old bus" to the Automobile Club of Paris for sale to the highest bidder, the product of the sale to be used towards the building of the new church.

Aviators Reported Safe

Winnipeg.—Flying Officer A. Lewis, Winnipeg, and Flight Commander Terry, attached to the Hudson's Straits survey expedition, are safe, according to a message received here. The aviators had been missing since February 17.

W. N. T. 1723

## Predicts B.C. Will Use Coal Resources

Cranebrook Member Believes Oil and Gasoline Will Be Manufactured In Province

Victoria, B.C.—British Columbia will some day manufacture all its oil and gasoline from its vast coal resources, in the opinion of N. A. Wallinger, Cranebrook member of the Legislature and a veteran mining man.

"We should follow up the use of pulverized coal as a fuel and the use of coal for gasoline and fuel oil," said Mr. Wallinger. Experiments already made indicate that the B.C. is not a dream but a practical opportunity to utilize natural resources at present hardly realized. British Columbia, self-contained in the matter of oil and gasoline, would become one of the richest industrial zones in the world.

Mr. Wallinger deprecates the fact that few great mines have been discovered in British Columbia during the past 30 years. "The prospector is not encouraged as he used to be. Most of the prospectors I run across these days are 60 years old, or older.

## Trade Barometer Rising

Trade and Manufacturing Reported On a High Level

Ottawa.—Canadian business got off to a good start for the current year. Out of the nine indicators of conditions in British Columbia during the first month of the year, which are reported by the Dominion Bureau of Statistics eight showed Canadian trade and manufacturing were on a higher level than they were at the opening of 1927.

In the table which follows the state of the index for the corresponding month last year is taken as 100 and the latest index for the present year is given as a percentage on that basis. The results are:

Employment, 106.  
Pig iron, 125.  
Steel, 142.  
Bank debts, 130.  
Bank clearings, 128.  
Car-loadings, 108.  
Imports, 101.  
Exports, 98.

The employment figure is that reported to the bureau for the first of February. Car-loadings are for the mid-week of February. All the other figures reflect conditions during January.

## Think Banking System Could Be Improved

Parliamentary Committee Is Preparing To Start Work

Ottawa.—A decision to call the Deputy Minister of Finance as the first witness was reached at the meeting of the parliamentary committee on banking and commerce.

The committee has before it a resolution moved by J. S. Woodworth, Labor, Winnipeg North Centre, "that the time has come for the consideration of the improvement of our banking system and that the banking and commerce committees be instructed to study possible improvements and report thereon."

On motion of L. J. Ladner, Conservative, Vancouver South, the committee decided to request the House to give it authority to have the proceedings reported and printed.

It was suggested that one or two witnesses from the United States who were familiar with the operation of the Federal Reserve Bank would be sufficient from that country. The recommendation of witnesses was then left to the sub-committees.

Death Of R. E. A. Leech

Regina, Sask.—R. E. A. Leech, 68, chairman of the Saskatchewan liquor commission from 1920 until the inception of government liquor control in 1925, collapsed and died suddenly in his home here. Heart failure is believed to have been the cause of death. Besides his widow, daughter and son, Mr. Leech is survived by three brothers, Hillyard Leech, K.C., Winnipeg; Alvin E. Leech, Winnipeg; and G. W. Leech, Raymond, Alta., and a sister, Mrs. F. J. Osten, Los Angeles.

Health Insurance Plan

Victoria.—Establishment of a provincial health insurance plan, designed particularly to extend maternity aid to settlers in districts distant from municipal centers, was given approval by the agriculture committee and the House will be advised to support appointment of a special committee to inquire into the problem.

Former Slave Dies At Advanced Age

Aylmer, Ont.—Lloyd Graves, former slave, died recently at Mr. Elgin at the age of 104. He was born in Kentucky, February 22, 1824.

## UNITED FARMERS STRESS VALUE OF THE H. B. ROAD

Saskatoon.—Initial steps leading toward the creation of a co-operative wholesale society in this province were taken by delegates attending the annual convention of the United Farmers of Canada, Saskatchewan section.

Following a debate, a resolution was adopted calling for the urgent need of separation of the present trading department from the parent body. The board of directors also was authorized to appoint three representatives of the association as members of a provisional board which will be entrusted with the task of formulating the details of the proposed plan of organization.

As a fitting commemoration of the Diamond Jubilee of Confederation, the organized farmers of Saskatchewan advocated the establishment of a free consultative clinic in the province, the report revealed.

The main object of the clinic would be to bring in the best medical skill within the reach of all, and provide complete laboratory investigation of a case and X-ray service.

In commenting on this subject the report says:

"We believe that a free consultative clinic would encourage people to have medical examination in the incipient stage of illness and would be of inestimable value in preventing disease."

"On the question of transportation, the directors voice gratification in the reduction of rates on grain and four during the past year. The rate on grain, on what is commonly known as the American route, has been lowered 10 cents a bushel, giving the farmer a reasonable all rate to the Atlantic ports."

The lowering of this rate, the report says, will also prove a decided check on lake transportation charges. Equalization of the rates North and South, governed by the Crows Nest agreement, had also meant a saving of \$2,000,000 a year to the farmers of Western Alberta and Saskatchewan.

The report concludes: "We are now seeing rushed to completion the long hoped for Hudson's Bay Railway. Organized efforts of the Saskatchewan farmers has been largely responsible for the initiative of the federal government in undertaking the completion of this route."

It is impossible to estimate the value to Western agriculture to be derived from the opening of our own seaport, thereby placing us 1,100 miles nearer our consuming markets; but if we are to enjoy the full benefits of this outlet organized watchfulness must be our motto where the Hudson's Bay Railway is concerned."

Oriental Question Serious

Victoria.—An invitation to all parties and to all members to unite in drawing up a resolution that would bring the seriousness of the Oriental question in British Columbia home to the rest of the Dominion without at the same time embarrassing either the federal or provincial governments in their relations with Oriental powers was extended by Attorney-General A. M. Manson in the Legislature.

CANNY MARGARET

This is Margaret Marshall, child and a half years old, photographed on the steps of the Canadian National train which carried her from Drumheller, Alberta, to the seaboard. All by herself, little Margaret is making a trip to see her auntie at Greenock, Scotland. Before she left home her mother said to her, "Now don't get off the train, Margaret!" and Margaret, being a canny little Scot, obeyed her, and not only that, but she consistently mistrusted all strangers except the train crew, which was so good to her on her long journey.

## Reforms For India

Sir John Simon, head of the British statutory commission on Indian Reforms which has been under fire in the Indian Legislature.

## Walked Narrow Gledge Across Niagara Gorge

Woman Takes Dangerous Path To Enter U.S. Illegally

Niagara Falls, N.Y.—How she flirted with death to enter this country illegally from Canada was told by Anna Putrusina, a pretty dressmaker of Montreal. She is a native of Lithuania.

She claimed she was lowered by a rope over the gorge bank on the Canadian side to the lower abutment of the Michigan Central Railway bridge, and then, accompanied by an alien runner, made her way across the gorge on the narrow steel ledge forming part of the under section of the bridge, more than 250 feet above the swirling whirlpool rapids. The girl and her escort landed safely on the American shore and she was taken to the home of Frank D. Gostino here to await four other women who were brought across the river in a rowboat the following night.

All five of the women were held as witnesses against the five men charged with smuggling aliens.

## Ban On Submarines

British Government Reaffirms Position On This Question

London.—Right Hon. W. E. Bridgman, First Lord of the Admiralty, when asked in the House of Commons if he had considered the desirability of abolishing the submarine in all other countries do the same, replied that the attitude of the British Government remained the same as enunciated by Lord Lee, of Fareham, at the Washington conference in 1921. At that time Lord Lee urged abolition of submarines.

This attitude, the First Lord added, was reaffirmed by himself at a plenary session of the recent naval conference at Geneva.

Another Medal For Lindbergh

New York.—Another medal was awarded to Colonel Charles A. Lindbergh. Trustees of the Woodrow Wilson Foundation voted unanimously to give the first the Woodrow Wilson award, which will consist of the Woodrow Wilson medal and \$25,000, in recognition of his trans-Atlantic and Central American flights.

## Gasoline Prices Drop

Reduction Of Three to Five Cents a Gallon in Manitoba

Winnipeg.—Gasoline prices in Winnipeg and most parts of Manitoba have dropped from three to five cents. Tank wagon prices are now quoted at 21 cents for low test gasoline and 24 cents for high test. The service station prices have dropped to 25 cents for the low test and 31 for the high, inclusive of the government tax.

The new prices were initiated by the British American Oil Company, the Prairie Oil Company and the Imperial Oil Company. The average reduction throughout the province amounts to three cents, while at some places a drop of five cents has been reported. Members of the trade give the opinion that the price drop will have an early repercussion in Southern Saskatchewan.

## Appoint Royal Commission

Will Investigate Finding Of Ballots On Street In Ottawa

Toronto.—An investigation to clean up the finding of 18 ballots on the street in Ottawa will be made by a royal commission composed of Mr. Justice Magee and Mr. Justice Hodge of the appellate court division. Premier Ferguson announced in the legislature. The premier's decision put an end to a deadlock which developed in the privileges and elections committee when that body asked Liberal leader Sinclair to produce the ballots then in his possession and he refused until the ballot boxes were examined. The ballots are presumed to be identical with those used in the last Ottawa South election.

## U. S. STRONG FOR THE ABOLITION OF ALL WARS

Washington, D.C.—An invitation to Great Britain, France, Italy, Germany and Japan to join the United States in forming a league to outlaw war outside the League of Nations was contained in the note handed by Secretary of State Kellogg, to the French ambassador, Paul Claudet, for transmission to the French government.

The United States firmly puts aside French suggestions that the proposed agreement recognizes the right to resort to war under certain conditions. "If such a declaration were accompanied by definitions of the word 'aggressor,' and by exceptions and qualifications stipulating when nations would be justified in going to war, its effect would be very greatly weakened and its positive value as a guaranty of peace virtually destroyed," says the United States note.

The note, which is brief, concludes: "The government of the United States desires to see the institution of war abolished and stands ready to conclude with the French, British, Italian, German and Japanese governments a single multilateral treaty, subject to subsequent adherence by any and all other governments, binding parties thereto not to resort to war with one another. The precise language to be employed in such treaty is a matter of indifference to the United States so long as it clearly and unmistakably sets forth the determination of the parties to abolish war." "The government of the United States desires to see the institution of war abolished and stands ready to conclude with the French, British, Italian, German and Japanese governments a single multilateral treaty, subject to subsequent adherence by any and all other governments, binding parties thereto not to resort to war with one another. The precise language to be employed in such treaty is a matter of indifference to the United States so long as it clearly and unmistakably sets forth the determination of the parties to abolish war."

The note, which is brief, concludes: "The government of the United States desires to see the institution of war abolished and stands ready to conclude with the French, British, Italian, German and Japanese governments a single multilateral treaty, subject to subsequent adherence by any and all other governments, binding parties thereto not to resort to war with one another. The precise language to be employed in such treaty is a matter of indifference to the United States so long as it clearly and unmistakably sets forth the determination of the parties to abolish war."

comment the text of M. Briand's original proposal, together with copies of subsequent correspondence between France and the United States, as a basis for preliminary discussions looking to conclusion of an appropriate multilateral treaty prescribing recourse to war."

## AMERY SEES A GREAT FUTURE FOR DOMINION

London.—"I have returned home with a truer perception of what the Empire means, namely a guild of free independent nations 'linked and the globe,' declared Lieut.-Col. L. C. M. S. Amery, secretary of state for Dominion affairs, speaking of his recent Empire tour, at a dinner given in his honor here by the Canada Club. E. R. Peacock, eminent London financier, who was born in Glangarry county, Ontario, and lived for some time in Toronto, presided.

Speaking of Canada, Lieut.-Col. Amery stated that he knew not what President Stanley Baldwin had there meant to him, and he was glad to hear that a party of 40 parliamentarians was to visit the Dominion this summer.

"Canada today," continued the secretary for Dominion affairs, "there is not that perhaps over-confident enthusiasm which marked the pre-war years. Experience has given her less, and she has gained depth as well as breadth. The problem before her statesmen was whether they should sell her strength to another country or conserve it for development by her own people."

In the coming generation, he believed, Canada's development would be greater than that of the United States, and would provide a greater inducement for immigrants either from across the ocean or across the border. Canada needed the immigration of professional and business men as well as men of muscle.

"Do not let our manufacturers be content with the preference Canada has now given them," he said, "but let them go and see Canada and learn how much more advantage they could reap from that preference. Let us all learn to get away from development in water-tight compartments. Then it would be easy for governments to adopt their policies accordingly."

## Find Weapon Used By Killer

Blood-Stained Axe Is Discovered Near Scene Of Winnipeg Murder

Winnipeg.—One of the most sensational discoveries of the St. Vital murder case has been made in the finding of a small axe smeared with blood and hair which police are certain was the weapon used by the killer in battering the head of Mrs. Lotie Adams, the murdered woman.

The axe, a new one with the price, 87 cents, plainly legible, was discovered in the snow 85 feet from where the body had been concealed in the deep ditch on North Drive, Port Garry. The exhaustive search of the area police have made since the murder the day the body was found was rewarded when one of the searchers caught the glint of steel in the snow.

Police consider it one of the most valuable links in the chain of evidence they already have in their possession.

## Would Visit Paris Again

No Chance To See It Last Time Says Lindbergh

Paris.—Col. Charles A. Lindbergh would like to visit Paris again this summer.

Instead of swooping down, however, from the air at Le Bourget in full view of thousands and with the acclaim of the multitude ringing in his ears, he desires to slip through Cherbourg or Havre without attracting undue attention, he recently wrote a close personal friend. He would enjoy a full week in Paris in recognition, he said, for he had no opportunity to see Paris at all in 1927.

Silver Foxes Stolen

Amirport, Ont.—The fox farm of J. A. Lytle, situated on the third line of Filzroy Township, Carleton County, was raided by thieves, and 12 silver foxes valued at about \$7,000 were stolen. The robbery took place during the night but the thieves were not detected until morning. It is believed to be the largest theft in the history of the fox raising industry in the province.

Cost Of Tariff Board

Ottawa.—The cost of the advisory board on tariff and taxation was given in a return tabled in the House today. In 1926 the United States, as a basis for preliminary discussions looking to conclusion of an appropriate multilateral treaty prescribing recourse to war."

## Empire's Smallest Island Asks for Help

EMPERESS OF FRANCE

TRISTAN DA CUNHA

BEACH SCENE, TRISTAN DA CUNHA

From King George and Queen Mary down to the lowliest of their subjects throughout the Empire, interest has been excited in the distant and isolated island of Tristan da Cunha in the South Atlantic by the voyage of the Canadian Pacific Line's Empress of France on its first African-American cruise in the course of which the vessel will touch at the island. Hardly one ship in a twelve-month comes anywhere near the island and the advent of one which carries with it every facility of modern luxury is an event which will certainly be unique.

The 140 inhabitants of Tristan da Cunha will have a treat in store when presents have poured in to the offices of the I. O. D. E. for them. These include timber and

mail which are being sent on the recommendation of Captain S. Vint, old-time mariner who lives in Montreal and who recalls days when he sailed near the island and the inhabitants put off in boats and begged for wood and copper nails. Other gifts are books, magazines, clothing, gramophones and records and particularly a powerful radio set which will keep them in contact with the outside world. No ships can dock at the island and the Empress on her passage across the 3773 miles of ocean that separates Buenos Ayres and Cape Town will stop about half way within sight of the island and will raft to its inhabitants the gifts of the outside world. This will be done about the last week in February.

The people are self-governing and self-supporting. The men are during seasons and clever carpenters and masons, but there is a touch of the primitive about the picturesque bullock-carts and the cottages built of huge blocks of stone. High cliffs circle the lonely island and are pierced with ravines, the walls rising like ramps from the sea to a height of over 1,000 feet. They are topped by a central cone that stands out amid the surrounding cliffs at a height of 7,040 feet, snow-capped and symmetrical as the Peak of Teneriffe. The island has only been in continual occupation since 1817, although discovered in 1506 by the Portuguese Admiral Da Cunha.

## West Indies Cruise of Recaptured Adventure

RUINS IN OLD PANAMA

THE MONTROYAL

Four hundred years of strife with piracy and rioting are encompassed in the history of the islands of the Spanish Main. For all these bright islands are monuments of the days of conquest of explorers and pirates. The West Indies mirror the life of miniature or the way of the world, and one sees them today lying peaceful under tropical skies.

A modern voyage of re-discovery is no longer a matter of years or even months as is emphasized by the schedule of the proposed cruises to this region of romance by the Canadian Pacific liner Montroyal which sails from New York on January 26 and February 29, each returning in 28 days.

Judging by the popularity of these cruises, the West Indies are still as tempting as they were to Columbus, Ponce de Leon, Drake, Cortes, Hawkins and a hundred others. Although there remain today no pirates, no rich galleons to sack, few buried treasures to seek, there still remains the bracing air on

silver seas, the beauties of coral islands, and of tropical life and many evidences of a historic past. Even in the matter of buried treasure everyone would like to surprise the world as did Lieut. George Williams who found amid some old ruins of Panama last year, by means of a violet ray detecting instrument, a treasure worth \$50,000. This mass of gold and jewels was unearthed on the site of San Jose Church which was destroyed in 1671 by pirates under Sir Henry Morgan.

Every spot on the west Indian cruises offers living testimony of a connection with the Old World. There is Cub, the beautiful island;

once the pride of Spain; Jamaica, headquarters in the old days of famous pirates; Panama, the former highway of Spanish treasure trains and now a name of the world's greatest canal; Colombia, stronghold of Hispaniola; Curacao, a little bit of Holland in the Caribbean; Porto Rico, where Columbus rested and whence Ponce de Leon set forth to find the Fountain of Youth; Nassau, in the Bahamas, with its coral formations and sea gardens and Bermuda, the "Isle of the Blessed". Such names as these recall exciting days of the past and furnish highlights in a voyage of recaptured adventure.

## Use The Journal

Keep the Coleman people posted on store bargains by advertising in The Journal. Nothing is more powerful or more helpful than the printed word in spreading the news of what your store has to offer, and in view of so much publicity being used by mail order houses, extra efforts in store service, backed by publicity and prices are absolutely necessary for the local retailer in order to offset the inroads of city competition.

The Journal is a valuable asset in helping to promote local business. Make good use of it to develop your local trade.

Encourage People to  
**Buy From Coleman Stores**  
by giving them weekly store announcements  
of the goods you have to offer for sale

With hotels and restaurants filled the early part of this week some visitors had to go to Blairmore for accommodation. People with rooms to rent would do well to advertise the fact in The Journal, so that newcomers or visitors requiring accommodation could easily find it. It is the best and quickest way to make known what is available.

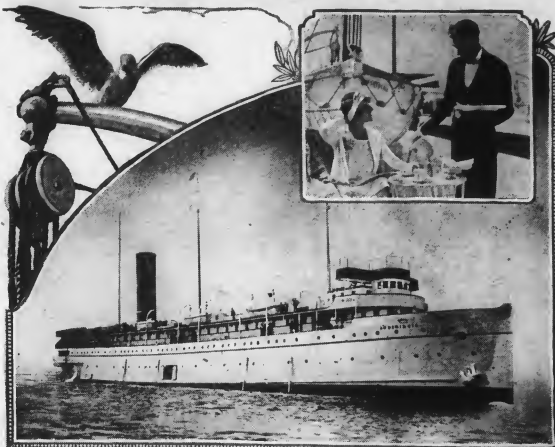

Clear up and paint up!  
The dance held on Monday evening in aid of the swimming pool was well attended in the K. of P. hall. Watch for dates of further dances.

Many a Castle of Accomplishment has tottered in ruins through minor defects in workmanship or construction.

Blairmore Juveniles were defeated by Calgary Jimmies at Calgary on Tuesday by a score of 12-0. The second game of the Juvenile championship series will be played at Blairmore on Friday.

Blairmore Legion will play at Regina to-night for the Western Canada junior hockey championship.

### Through Canada's Inland Ocean

1. The Great Lake Steamer S.S. Assiniboia, of the C.P. Fleet which carries its passenger through the land of charms. 2. Serving a little bovtill during the trip.

The Great Lakes for a summer holiday have no equal. Contrary to the generally prevailing opinion that the automobile and touring and camping are a greater attraction these large bodies of fresh water really inland seas, are holding their own, indeed, by those who know it is said that they are doing more.

From Port McNicoll to the Head of the Lakes, is practically an ocean voyage. The great white steamers of the Canadian Pacific Railway are operated the same as the huge ocean liners. At Port McNicoll the visitor sees a man made harbor, surrounded by a village which has been developed from the original within the last twenty years. About an hour and a half after leaving port, a huge sound the dining call, and going below the traveller finds the dining room spacious and comfortable which greatly whets the already huge appetite.

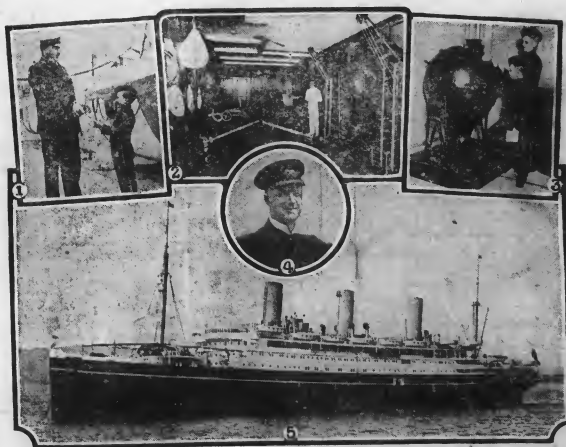

After dinner a promenade of the broad white decks, as motionless as the city streets, but with what a difference! The fresh clean breeze stiffens, the sun strikes the horizon and sinks in blazing splendour leaving behind a sense of peace and well-being. Host upon host of graceful white-spread wings appear over the stern, crying the poignant call of the hungry gull. So still they are as to appear motionless, a floating bit of white feather, but a chance opening of the cooks galley port hole brings them swooping down, screaming with the wiliness of the blizzard, with a strength and speed that is amazing.

Land slowly disappears and the island are lost in the soft enfolding darkness. Stars come out, and a white moon floods the lake with an ethereal fealty. All is quiet—a friendly intimate quiet—broken

here and there by a merry laugh, a passing footstep, the throb of the great engine and the spark on the wireless up above. A little later we pass the protruding Bruce peninsula, then the Manitoulin Island, the home of the Great Spirit. In the distance can be seen the blinking light of the mariners' guides, the light-houses at Cabot's Head, Lonely Island, the Flower Pots and in the further distance ahead, Cove Island, the marking point of the entrance to Lake Huron.

These steamships, the "Keewatin," "Manitoba," and "Assiniboia" of the Canadian Pacific service are first-class in every way, and ply these inland waters from May 21st to September 28th. The journey occupies the better part of three days, with every wave trimming further charm and savour to the unfolding beauty of the trip.

### Canadian Pacific Pride for Atlantic Service

1. The Tallest Officer and Smallest Bulbous on the ship. 2. Captain R. G. Latta, R.N.R., Commander of the Empress of Australia. 3. German Floating Mine Borne a Novel Letter-Box on the ship. 4. Latest Photo of the Canadian Pacific Empress.

Formerly on the Pacific Service of the Canadian Pacific Steamships Limited plying between Vancouver and the Orient, the Empress of Australia has for the past six months been in Great Britain, in the hands of Fairfield Shipbuilding Company by whom the vessel has been completely re-engineered and re-conditioned, so that she is entering the Atlantic service in her new career virtually a new ship.

This luxurious vessel displaces 21,850 tons, and carries 1,176 passengers. In the luxury of her fittings the Empress of Australia is the pride of the Canadian Pacific fleet. Especially attractive are the high-decked dining rooms in the style of the

French Regency and the Louis XIX, smoking room with its oak panels and tapestry decorations. Tourist third class passenger traffic across the Atlantic which is greatly on the increase, is catered to on generous lines, the accommodation provided being equal to what most first class passengers got twenty years ago.

The Australia took her first trip from the Clyde to Southampton in June and answered every test. She developed four knots a hour above her schedule with a fuel consumption less by fifty per cent. At Southampton Mayor P. Beyer, who is also ex-officio admiral of the Port, headed a civic welcome to the ship and was welcomed on board by Sir George

McLaren Brown, European General Manager of the Canadian Pacific. Under the command of Captain R. G. Latta her second voyage will be honored by the Prince of Wales and Premier Baldwin of Great Britain and Mrs. Baldwin on July 23. Commander Latta is known to thousands of passengers from all parts of America and the British Isles, having been in command of the Round-The-World cruises of the Empress of Scotland. This winter, however, the Empress of Australia will be used as the world-cruise ship of the Canadian Pacific, sailing on this well-known four-months voyage to the four corners of the earth from New York in December.

# How The Sun Life Made Thirty-Eight Millions Profit In The Year 1927

Participating Policyholders Receive Ninety-Five Per Cent. of Profits—Dividends to Policyholders Again Increased—Company Seeks Legislation to Maintain Canadian Control.

Montreal, March 10.—The phenomenal record of the Sun Life Assurance Company is an inspiration to all Canadians. Its income of \$102,000,000 is already equal to the total revenue of the Government of Canada in the year 1910, and \$38,000,000 is certainly an amazing sum to have earned as profit in one year. Not many corporations anywhere can report such figures. The President's intimate, practical comments at the annual meeting, explaining how these huge profits were made were illuminating.

Of even greater moment, however, were his statements regarding the danger that this great Canadian institution may pass from Canadian control. Some months ago, Mr. Macaulay referred to the activity of Wall Street in the buying of Sun Life stock, and cautioned policyholders and shareholders of the menace it involved to an institution, which was founded and controlled by Canadians and which has obtained its phenomenal growth under Canadian management. Subsequent events have justified these misgivings.

At the meeting today the first public intimation was given that the Sun Life directors are seeking legislation, at the present session of Parliament which is intended to effectively forestall this danger.

**Precautions to Maintain the Company Canadian in Character.**  
In concluding his address to the shareholders and policyholders, the President made the following reference to the matter:—

"There is but one cloud on our horizon. Our very prosperity has created a remarkable demand for our capital stock. We desire to ensure that this great company shall always remain strictly Canadian in its control and in particular that its investments shall never come under Wall Street domination. A bill which we have introduced into Parliament will be submitted for your approval. If it be passed, it will give us the protection we so much desire. It will enable us to rely on the whole-hearted sympathy and support, not only of our stockholders and policyholders, but also of our army of policyholders throughout the country."

The meeting unanimously approved the measure in question. It is of importance and how the Canadian interests are at stake is disclosed in the report submitted to the annual meeting of the Company.

In moving the adoption of the report, President Macaulay said: "You gentlemen have become so accustomed to our presenting every year a statement of our affairs, and previous records that you come prepared to hear another report of that description. I am quite sure, however, that not one of you, in his most optimistic mood, expected a report so favourable as this which we are about to have. Our record for 1927 is indeed a remarkable one. Let me touch on the main features."

**Remarkable Growth, Strength and Profits**  
"The new assurance completed amounted to \$328,000,000, an increase of over \$62,500,000. "The amount in force at the close of the year had risen to \$1,487,000,000, and at the present moment is well over \$1,500,000,000. "The income exceeded \$102,000,000, an increase over the previous year of \$23,800,000. To this, this item passed the one hundred million mark, but the increase alone is equal to what was our total income but eight years ago, which had been accumulated by forty-nine years of strenuous effort. A life company with such an income no greater than this, and which is increasing so rapidly, is an important corporation."

"The assets have been increased by \$56,000,000, and now exceed \$300,000,000. "But the most wonderful of all these wonderful figures is the amount earned as profit—\$38,000,000. How great this figure is may be judged from the fact that the earnings of the previous year, in which we were rejoicing were \$20,500,000. It would be hardly reasonable to assume that our earnings of future years will

continue on such a tremendous scale, and we have therefore set aside a large part of this sum to provide for future contingencies."

**A Great Surplus and Contingency**  
"Our securities have been valued on a very conservative basis, but from even those moderate values we have set aside another \$30,000,000 to provide for market fluctuations, making the total deduction under this heading \$10,000,000."

"We have also set aside the following:— "A further \$1,500,000 for unforeseen contingencies, raising that fund to \$12,500,000. "A further \$1,000,000 for possible greater longevity of annuities, raising that item to \$2,000,000. "A further \$1,000,000 for possible greater longevity of annuities, raising that item to \$2,000,000. "A further \$1,000,000 for possible greater longevity of annuities, raising that item to \$2,000,000."

"We have distributed \$11,000,000 profits to our policyholders, and have also set aside \$1,000,000 for our profits accrued on policies. "After providing for all these amounts, we have still \$1,000,000 of our undivided surplus, raising that sum from \$10,000,000 to \$11,000,000."

**Scale of Profit Increased For Eighteenth Successive Year**  
"The announcement, however, that will be received with the greatest enthusiasm is that for the eighth consecutive year we have increased the scale of profit payments to our policyholders. The basis of distribution for 1928 will call for nearly \$80,000 more than would the basis of last year."

**Profits To Policyholders Unprecedented in the World**  
"We can already say that in profitability to our policyholders, we are not exceeded by any life company in the world; but we are not satisfied and will not be satisfied until we can make an even stronger statement than that. Years ago, I told our field force that we hoped to be able to announce an increase in our profit scale for ten consecutive years. We have maintained that record for eight years, but the ninth and tenth years have yet to come, and their story has yet to be told. Our huge undivided surplus and our great contingency funds are the best guarantee our policyholders can have as to their future dividends."

**Large Dividends the Result Of A Wise Investment Policy**  
"You ask how we are able to make these huge profits. The \$38,000,000 earned may be divided as coming approximately \$14,000,000 from our regular life assurance operations of the company, \$5,000,000 from profits actually realized by the redemption or sale of securities and \$19,000,000 from increase in market values. And, of all the profits made in the past year, the policyholders get ninety-five per cent."

"I would not have you suppose that we over speculate. We do not. We, of course, do not hesitate to sell bond or other fixed-interest securities when they rise to such premiums that they yield us no longer satisfactory, but when we buy stock we buy for permanent investment, we buy to keep, and we never sell merely because the market value may have risen to a high figure. We have, however, had an epidemic of security redemptions, and as a result we have the \$5,000,000 of realized profit."

**High Interest Rate Earned, With No Arrears**  
"Even the normal earnings of a life company depend very largely on the rate of interest it can obtain on its investments. The current rate of interest has been steadily dropping for years, and there is every indication that will continue to drop. For how long we cannot tell. The outlook for investors in bonds and mortgages is not encouraging. That fact causes us no anxiety. We have enlisted many large groups of the brightest, most experienced, most energetic and most successful men on the continent to work for us to maintain our high interest earnings. We get their co-operation by becoming stockholders in the outstanding basic corporations of the country, that we share in all the profits that they make. The dividends which we receive on our stock holdings are already more than two millions more than were payable on the same stocks when we bought them. Our interest account, of course, includes also our dividend receipts and our record is illuminating. In 1922 the average rate earned by us was 6.07 per cent; in 1923 it was 6.20 per cent; in 1924, 6.38 per cent; in 1925, 6.41 per cent; in 1926, 6.69 per cent; and in 1927, if we were to use the same basis of calculation as in previous years, the rate would be 6.81 per cent. We, however, do not wish to show such a high rate, and as we always make a charge of

## LESSON No. 18

**Question: Why is emulsified cod-liver oil so useful for a child who is pale and losing weight?**

**Answer: It is food and tonic rich in vitamins and other nourishing factors that are particularly helpful to a weakened child.**

For your child—old reliable

**SCOTT'S EMULSION**

5 per cent, against our interest earnings for investment expenses, you will note that we are quoting only the net rate, 6.47 per cent, after deducting that investment expense. The falling rate of interest has no terrors for us."

"The quality of our securities may be judged by the fact that not one dollar of interest or dividend on any bond, preferred or common stock listed in our assets is in arrear for even one day."

**Business Doubled In Four Years**  
"The position we have attained justifies our enthusiasm. But we must always look on the present as a mere vantage ground from which to plan for the future. What is that future to be? Year after year we have been confidently predicting the glorious future of which we were then sure. The future is now unfolding itself before our eyes in all its greatness and strength. But what of today's future? I have just been reading my own remarks of two years ago, and already the figures of which we were then proud look small and outgrown. We have doubled in size now every five and a half years since the Company began, but our last doubling has taken only four years, and we are today growing more rapidly than ever before in our history. I predict that the figures of two years hence will make even the figures of today look small and outgrown in their turn."

**Sun Life Sets Its Own Pace**  
"People sometimes say 'speaking of our progress—Yes, life assurance is growing wonderfully. So it is; but the Sun Life is not content to grow only at the rate of life assurance generally. Statistics now available indicate that in 1927 the aggregate new business of all the companies operating in the United States exceeded the total for 1926 by only one per cent, and in Canada by seven per cent. But the new business of the Sun Life of Canada was an increase of twenty-three per cent. We set our own pace. Our property and popularity, and the confidence of our six hundred thousand policyholders, make our growth both rapid and certain. The future still before us will, I am convinced, be more wonderful than anything we can now imagine. And it is indeed a happy thought that all that growth in size and all that growth in prosperity mean increased assets to humbly, and service at steadily lowering cost to our policyholders."

The President closed his remarks by his reference to the need of safeguarding the future of the Company, as above quoted.

The Board of Directors of the Sun Life of Canada is composed of: F. B. Macaulay, F.I.A., F.A.S., President and Managing Director; Arthur B. Wood, F.I.A., F.A.S., Vice-President and Actuary; Robert Adair, W. M. Birks, Hon. Raoul Dandurand, J. Rudolph Dandurand, Sir Herbert A. Birkenhead, Kingman, J. W. McConnell, E. E. Neill, Carl Riddon, John W. Ross, His Honor Judge C. T. D. Lorne C. Webster. Three new directors were added at the meeting—Hon. L. A. Taschereau, E. H. McMaster and C. B. McNaught.

**Canadian Asbestos Deposits**  
Canadian asbestos deposits are of particular interest, supplying as they do the largest part of the world's demands for the short grades of fibre. Though occurrences of this mineral have been noticed in other localities and provinces, the productive areas are confined to the Eastern Townships where active mining operations began in 1880.

The first public performance is believed to have been staged 327 years ago at a French royal wedding.

In the mines of Butte, Montana, the air temperature has been reduced to as low as 10 to 20 degrees by proper ventilation.

**Aching Feet.**  
Bathe and rub well with Minard's. It soothes and brings a contented feeling of repose.

**MINARD'S "KING OF PAIN"**

Minard's Liniment—Invaluable in the Stable.

## WORLD HAPPENINGS BRIEFLY TOLD

Four men have set sail from Rotterdam in a 20-foot lifeboat on a voyage to New York which they hope to accomplish in 40 days.

Penny-in-the-slot machines for the distribution of milk were recently inaugurated in Newcastle-on-Tyne, England.

Geoffrey B. Riddough, M.A., at present on the staff of the University of Alberta, has been appointed instructor in classics at the University of British Columbia.

A Belgian consular agent has been sent to explore the possibilities for increased trade with Canada, Foreign Minister Paul Hymans announced in the Belgian Senate.

Peter Vergin, leader of the Doukhobors, accompanied by two of his advisors, arrived in Winnipeg on what was stated to be an important political mission.

At the request of the South African Government, the Earl of Athol's term of office as Governor-General and High Commissioner has been extended for two years from 21st January, 1929.

John Humphrey Beck, who came to Manitoba from Missouri by covered wagon in 1876, died in Winnipeg, aged 78. Mr. Beck operated a mule team transportation business between Winnipeg, then Lower Fort Garry, and Fort Ellice, Man.

A small increase in the area sown to winter wheat in Soviet Russia was reported to the International Institute of Agriculture. The figures showed an increase of 3.3 per cent in the area sown to winter wheat for the crop of 1927, as compared with the figures for the previous year.

Navigation on the Great Lakes will not officially open this year prior to May 1, according to an agreement reached between Canadian and U.S. vessel owners. It has been decided that no attempt will be made to reach the upper lakes before May 1.

## SUNDAY SCHOOL LESSON

MARCH 11

### JESUS FEEDS THE MULTITUDES

**Golden Text:** "I am the bread of life; he that cometh to Me shall not hunger, and he that believeth on Me shall never thirst."—John 6:35.  
**Lesson:** Mark 6:81-44; 8:1-10.  
**Devotional Reading:** Ezekiel 34:11-16.

### Explanations and Comments

1. The Need For Rest, verse 31.  
2. The disciples returned from their mission tour flushed with success, but they were greatly wearied and needed rest. They needed likewise an opportunity for taking counsel with their Master. Neither rest nor communion was possible, however, so great was the crowd that continually came and went about Jesus. They had no leisure even to eat, Mark tells us. "Come ye yourselves apart to a desert place, and I will rest a while," Jesus said. Accordingly, they set off in their boat with him for an undisturbed place for taking the meaning here of the word rest, on the other side of the lake. There came times in the lives of all Christian workers when they need to heed this counsel of Christ to go down in green pastures; he restoreth our souls. Dr. Jewett recalls how Ruskin, after a time spent in some great art gallery found that his eyes were irritated and confused by the changing colors and the accuracy of his artistic discernment were lost. To correct all this he carried in his pocket a tablet of neutral blue, the restful color of the meadows, and gazed upon it until the bewildered passed away and the keenness of his perception was restored. "In a certain real way he rested apart, and the retirement found a new competency for his work. And surely in our own day, when the rush of life is so intense, when everything is so intense, when our besetting interests are so manifold, and often so glaring, it is imperative that it is imperative that we withdraw apart and correct our moral and spiritual vision. That which impairs our powers, and they need the rest of the neutral tints."

**A Power Of Its Own.**—Dr. Thomas' Electric Oil has a subtle power of its own. All who have used it know this and keep it by them as the most valuable liniment available. Its uses are innumerable and for many years it has been prized as the leading liniment for man and beast.

Few people realize that their neighbors could be worse.

Why suffer from corns when they can be painlessly removed by using Follows' Corn Remover.

A woman stated in court that she had never in her life listened to a word of gossip. It must be dreadful to be deaf.

A man has less trouble watching his enemies than he has keeping his friends in line.

## Developments in Radio

Expect To Be Able To Transmit Whole Pages Of Newspaper

Wireless telephony between England and Canada within a month or two, and experimental facsimile transmission by beam radio between the two countries were predicted by Senator William Marconi.

Predicting sensational developments in wireless within the next two or three years, Marconi declared radio has greater possibilities of development than ever before, and that it will change the whole inter-reaction of the world.

Chief among the developments he placed facsimile transmission, which he believed might ultimately supersede code transmission.

"By this means," he said, "we can transmit a whole page of a newspaper or any handwriting. We are going to try it very shortly to Canada."

The senator also claimed to have what amounts to a secret system of communication called the cryptograph, which is a transmitted message is automatically coded and decoded.

## HEART WAS SO WEAK

Had to Stay in Bed

Mrs. F. Wilson, Leithbridge, Alta., writes:—"My heart was very weak, and I had to stay in bed for five weeks with it."

"My aunt advised me to take

MILBURN'S HEART NERVE PILLS

as she had taken them with good results after a very bad operation.

"I took them and some time after a doctor was consulted and he gave me life insurance and he said there was nothing wrong with my heart."

Milburn's Heart and Nerve Pills are 50c a box at all druggists and dealers, or will be mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## Canada's Coal Problem

Commission To Study The Whole Question Is Recommended

Finlay MacDonald (Conservative, Cape Breton South), proposed to the House that a commission should be appointed to study the whole problem of moving Canadian coal to central Canada. Mr. MacDonald's commission would consist of five members and be representative of:

- 1.—Coal companies.
- 2.—Railway traffic departments.
- 3.—Industry consuming coal.
- 4.—Business men.

Mr. MacDonald felt sure such a commission would find a remedy for the problem of marketing coal.

## RESTORED TO GOOD HEALTH

Mother of Eleven Children Praises Lydia E. Pinkham's Vegetable Compound

Her Interesting Experience

Buckingham, Quebec.—"I am the mother of eleven living children, and my baby is now nearly 18 months old. I am only 35 years old, and I have had many years of suffering from weakness and my nerves I know it from, but I was not able to do anything. I was in misery and I was ready to cry. Now I am so happy to have good health. My daughter, who is 15 years old, has taken it and will be happy to recommend it to all young girls."—Damo Wiggins, Buckingham, Quebec.

Why suffer for years with backache, nervousness and other ailments common to women from early life to middle age, when Lydia E. Pinkham's Vegetable Compound will give you relief?

In a recent country-wide canvass of purchasers of Lydia E. Pinkham's Vegetable Compound, over 250,000 replies were received, and 98 out of every 100 reported they were benefited by its use.

### CHAPTER XIX.—Continued.

It was strange for Arthur Warner, after all his lonely years, to be sitting here talking so intimately to a woman who was a comparative stranger, and receiving from her confidences which she had given to no one else. He thought of his own lonely house—so precious to him, so eagerly acquired, recently worked for—how a woman like this would have brightened it and graced it with her presence. She was so calm, so brave, so gentle.

When their eyes met Helmi smiled encouragingly at him, though sadly too, as if the tears were not very far away. Were they tears because he was going?

"Helmi," he said, "we are both facing the elemental things of life, and it draws us together. We are facing the hardest things that men and women ever have to face. Your part will be to give life, maybe at the expense of your own. Mine is—God forgive me—to take life. Are you afraid?"

Helmi shook her head. "No," she said, simply, "I believe in God—I believe He loves me. I love Him. Every day I say my good words. I learned them in His house. They are 'Christian health; Seek truth; Know God; Serve others.' Then I say, 'Please God, bring home my Jack.' It is good to pray, Mr. English, when one is afraid."

The first ragged whistle of the train came booming down the valley. "Tell me your name Helmi," he said. I want to say good words for you and for your Jack."

Helmi took his hand and impulsively kissed it. "Helmi Doran," she said. "I am glad you will say good words for my Jack. Maybe you will see him over there—I know he will go."

"I hope for your sake that it will all be over when Jack comes home at Christmas." He was standing up now with his cap in his hand. The train was waiting again as it came slowly down the grade. Helmi looked at him reverently. It was not merely a lonely, weather-beaten homesteader she saw standing before her; she saw a brave man who was willing to give everything he possessed, not withholding his own life, for the cause of human liberty, and on his face she saw the unmistakable majesty which comes to those who are appointed to die.

Arthur Warner bent over and kissed her shining hair. "Good-bye, dear Helmi," he said.

"Good-bye, God bless you, dear Mr. English!"

When Arthur went out he met Mrs. McMann coming in. She had come presumably to ask Helmi what she had done with the tape-line.

### CHAPTER XX.

It was in December that Helmi decided to delay no longer, and she would go to the city. Jack had told her to go to his mine boss and get the two

### Demonstrates New Camera

Spark Instead Of Shutter Gives More Exposures Per Second

Moving pictures taken at the rate of 20,000 exposures a second showing a bullet apparently barely moving as it shattered a glass bulb were shown to a meeting of the Optical Society of America.

Professor Alexander Kleim, of New York University, who gave the demonstration at Columbia University, said the camera used was similar to an ordinary one except that a spark vibrating with high frequency took the place of a shutter.

The pictures of the bullet shattering a picture of a whirling aeroplane propeller, taken at the rate of only 2,100 a second, showed the blades turning at a rate not much faster than a slowly revolving door.

The pictures of the bullet shattering the glass bulb taken at the high frequency exposures showed the shattered glass fragments falling through the air so slowly as to be hardly perceptible.

Countless tests and experiments, covering a period of over thirty years, prove that aluminum is the only completely satisfactory material in which to pack tea. Red tea is put up only in aluminum, and a "money-back" guarantee goes with every package. 5W

slipped down the mountain, without a sound, and laid low every stalk and every bloom in her garden, and having done its work went back the way it came. The morning sky was blue and bright, the sun was warm, and playful little breezes turned the dead flowers over, just to be sure that none were missed. When Helmi came out and saw the work of the night she wrung her hand—but only for a minute. That day she raked the dead stalks into a pile, and she buried them when they were dry and dug the garden for her next year's planting.

Helmi had not yet brought herself to ask for the two hundred dollars Jack had left. She wished the time-keeper would give it to her without asking for it, but the days wore on and she knew she must go soon. She would not let Mrs. McMann or anyone think she was grieving or distressed. Jack had told her that the greatest thing in married life was to trust and not be afraid, so she affected a gaiety she did not feel, which quite deceived the "elite" lady.

"These foreigners haven't got any fine feelings," Mrs. McMann told her friend Mrs. Turner. "Now one would think Helmi would feel a little shy, but pass her house any time you like and you can hear her singing, and as long as the days were nice she was either working in the garden or sitting outside sewing. And mind you, she went into the store and asked for white flannel from Jim Dawson—Mrs. Dawson told me. Well, of course, one can't expect much from these foreigners."

Helmi had never been like Mrs. McMann often told me I was too shy, but it was the proud Weeks way."

Helmi waited until the middle of the month. Still no letter, but word there was no use going to the post office. The same answer was inevitable—"Nothing today." She could hear it all the time, beating, beating on a sore spot in her heart. But always she had been able to find something, words she had prepared on the way down.

One day she went to the stuffy little mine office and spoke to the time-keeper about the wages Jack had not paid. The time-keeper sat in his shirt-sleeves making out his accounts. The place reeked of stale tobacco, and dust lay gray on the windowsill. Quietly raising his eyebrows, he explained his reason for going to the city.

The time-keeper looked confused and embarrassed. "I'm awfully sorry, Helmi," he said, "but there has been a mistake here some place. There was two hundred dollars owing to Jack when he left, but a man came one day with an order from Jack and I gave him the money. He said when Jack got to Pence River he found there were some things he needed. It was about a week after Jack left, if I remember—I have the order here, if you would like to see it. You see, I didn't know you would be wantin' it, or anything, or I would have refused this fellow, but he had the order and I couldn't very well do anything but pay the money over." (To Be Continued.)

Asthma Victims. The man or woman subject to asthma is indeed a victim. What can he most terrifying than to suddenly be seized with paroxysms of choking which seem to fairly threaten the existence of life itself. From such a condition Dr. J. D. Kellogg's Asthma Remedy has brought many to completely restored health and happiness. It is known and prized in every section of this broad land.

### Peace, Perfect Peace

Extract From a Letter Sent By a Soldier To His Wife

The following preciously preserved extract from a love letter written some to his wife by a soldier on active service will evoke tender memories in thousands of our former service men:

"Don't send me no more nagging letters, Lettie. They don't do no good. I'm three thousand miles away from home, and I want to enjoy this war in peace."

Employer: What kept you from work yesterday, acute indigestion again?

Typist: No; a cute engineer this time.

All speed limits were exceeded in the last minute rush for motor licenses.

Leprosy is supposed to have been brought to America by the negro slaves.

### A Lady and a Diplomat

Difference Between Them Is Defined By U.S. Minister

Hon. William Phillips follows the methods of the public men of his country who provide at least one funny story to a speech. In paying tribute to Canadian women's organizations at the Women's Canadian Club reception in Toronto, in honor of Mrs. Phillips, and himself at Casa Loma, the U.S. Minister declared he could never say "No" to them. That reminded him of the story in which he quoted the difference between a lady and a diplomat:

"A diplomat says 'yes' when he means perhaps; but when he says 'perhaps,' means no; and when he says 'no,' he is no diplomat. On the other hand, a woman says 'no' when she means perhaps; says 'perhaps' when she means yes, and when she says 'yes' is no lady."

### Seek New Variety Of Wheat

Wheat With High Degree Of Resistance To Stem Rust Is Desired

The production of a variety of wheat combining high yield and good baking qualities with a high degree of resistance to stem rust, is one of the most pressing problems at the present time according to the Dominion Department of Agriculture. Careful consideration is being given to rust resistance in new varieties and strains developed by the Dominion Experimental Farms. New varieties are produced chiefly through the medium of artificial crossing of carefully chosen parent varieties, the crossing work being confined chiefly to the Central Farm at Ottawa and to the Rust Research Laboratory at Winnipeg.

### MISTAKES MOTHERS MAKE IN CARE OF LITTLE ONES

Many mothers give their children solid foods at too early an age, and say proudly that their babies "eat everything that grown up people do." But a course is almost certain to bring on indigestion and lay the foundation of much ill-health for the child.

Other mothers administer harsh, nauseating purgatives which in reality irritate and injure the delicate stomach and bowels and at the same time make the children to dread all medicine.

Absolutely no meat should be given to a child before the age of 18 months, and then only if approved by the doctor. For medicine, all irritative and injurious cathartics should be abandoned and Baby's Own Tablets given instead.

Baby's Own Tablets are especially made for little ones. They are pleasant to take and can be given with absolute safety to even the newborn babe. They quickly banish colic and simple fevers and make the cutting of teeth easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### The Palace Of Augustus

New Excavations On Palatine Hill Are Expected To Reveal Treasures

The new excavations which have been started on the Palatine Hill have for their ultimate object the unearthing of the Palace of Augustus. A wall nearly 200 feet long and about 36 feet high has already come to light, and it is hoped that some good marbles and other artistic objects which once adorned the residence of the Caesars will later be discovered. The Palace of Augustus actually consisted of several buildings, including a temple and two well-stocked libraries of Greek and Latin books. It is known, however, that many of the imperial buildings were buried in earthquakes during the Middle Ages, and there are hopes that a part of their treasures may still be recovered from their remains. The buildings were adorned by more than 100 columns of alabaster and rare marbles, the porticoes contained several marble statues, while the interior was lavishly decorated with panels and medallions, artistic gems and cameos.

### British Youth For Canada

Movement Is Expected To Be Heavier Than Usual This Year

The movement of British youth to Canada promises to be considerably heavier than usual, due to new arrangements, made with the British Government. Ontario is taking 500 boys, Manitoba 50, and the Maritime Provinces and Saskatchewan an undetermined number, while some hundreds are to be moved by private organizations. In all it is estimated some 2,000 boys will probably be brought out under the new scheme this summer.

The less the average man knows about a thing the more he wants to talk about it.

### Train Load Of Farm Tractors

Largest Train Of This Kind That Has Ever Crossed Western Canada

An indication of the prosperity and development of Western Canada was given recently when a trainload of farm tractors passed through Winnipeg westbound. Made up of 52 cars, the train was said to be the largest containing farm implements ever to cross the Canadian prairies. The bulk of the tractors will be distributed from Melfort and Humboldt, Saskatchewan, to various parts of the province. Eight cars went to different points in the province of Alberta.

Germs cannot resist the new liquid germicide known as S.T. 37, which destroys bacteria so quickly that it is impossible to figure the time in which the reaction takes place.

We blame our ancestors for our faults, just as they blamed their ancestors for their faults.

Too many persons mistake notoriety for fame.

### Little Helps For This Week

My Shepherd is the Lord my God, There is no want I know; His flock He leads in verdant meads, Where tranquil waters flow. He doth restore my fainting soul, With His Divine cares, And when I stray He points the way To paths of righteousness.

Through every step in life the Shepherd offers to guide us, if we will but hear His voice and follow Him. He never promises smooth paths, but He does promise safe ones. If we follow Him we may find the steepest cliff "a path of pleasantness," and the lowest vale of humiliation a highway to peace.

—Theodore L. Cuyler.

Tom—"He's a great procrastinator."

Mabel—"He is! Well, he used to be the dumbest kid in school."

A fugue is a musical composition on one or more short themes which are reintroduced from time to time.

## Demand

**ASPIRIN**

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Aspirin. The name Bayer is on every tablet, and on the box. If the name Bayer appears, it's genuine; and if it doesn't, it's not. Headaches are relieved by Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Aspirin—at any drugstore—with proven directions.

**Physicians prescribe Aspirin; it does NOT affect the heart**

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. With it will know that Aspirin means Bayer manufacture, to ensure the public against imitations. The Tablets will be stamped with their "Bayer Cross" trademark.

## Cuticura Treatment For Dandruff

Part the hair and gently rub in Cuticura Ointment until the whole scalp has been treated. Let the Ointment remain on for some time, overnight if convenient. Then shampoo with a soap of Cuticura Soap and warm water. (Do not rub Soap on the hair.) Rinse thoroughly. A light application of Cuticura Ointment to the scalp willing.

Sample Each Free by Mail. Address: Cuticura Dept., P.O. Box 122, Boston, Mass.

Write for Cuticura Shampoos 36c.

## Personal and Local

Mrs. Geo. Pattinson is at present visiting in Edmonton.

Mrs. Howarth is making steady progress towards recovery following an operation in the hospital.

James Denham was injured at the international mine last Friday by falling beneath a mine car.

Miss Ella Eva Celli recently entered the nurses training class at the Holy Cross hospital, Calgary. Jas Duncan, of Blackie, spent Sunday in town renewing old acquaintances.

Mrs. McCallum left on Tuesday morning for her home in New Dayton, after spending three weeks with her daughter, Mrs. Lindos.

T. Holstead of The Journal office was a visitor at his home at Macleod over the week-end, and also visited friends at Spring Creek.

Mrs. T. Bowen entertained a number of ladies on Wednesday afternoon, and in the evening members of the Rebekah Lodge were entertained.

Look out for the W O M L Pantry and Apron Sale on Monday, March 19th, at the Moose Hall, afternoons tea served at 3 p.m. Social evening following.

Mrs. J O C McDonald returned to Coleman from Brule, Alta., last week, to which place she had accompanied Mr. McDonald, who has taken over the duties of mine superintendent there.

Mrs. Ashridge and children, accompanied by her mother, left on Wednesday for Corbin, B.C., where Mr. Ashridge has taken a position with Corbin Coals, Ltd., as purchasing agent.

The Journal would welcome news from its readers. Items of local interest that may come to your notice and you think would interest others would be gladly received by the editor.

Dick Shone is making progress, following his operation. It is six weeks since he went into hospital during which time he has undergone five operations, in an effort to save his hand from amputation. Since last Wednesday, when the hand was taken off, he has been in a critical condition at times, but his cheerful disposition and determination to win through has had a good effect, despite the suffering he has experienced.

A shower was held at the home of Mrs. J. A. Price and daughter Gladys in honor of Mrs. Stephen Machin, at which many old friends were present. Five tables of bridge were played. Mrs. W. L. Rippon winning first and Miss Elsie Hayson the consolation. After the luncheon gifts were presented to Mrs. Machin, who made a very appropriate reply. Mrs. Jones added to the pleasure of the occasion by singing two songs.

Capt. and Mrs. Hind will leave today or Friday for Calgary to attend the Young People's Council, and will remain over Sunday. Services for the local corps for Sunday will be in charge of Mrs. A. Rhodes, of Bellevue, an ex-officer of the Salvation Army Thursday instead of Tuesday will be the weekly lantern service night for next week owing to Captain Hind's absence at Calgary.
